Re: Revised budget based on the Protocol Dated 23 October 2000

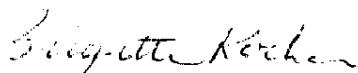

Dear Ms. McAlpin:

Enclosed is a revised budget for the protocol entitled "A Single-Center, Pilot Study to Evaluate the Validity of Study Design Characteristics in Smokers and Non-Smokers". The budget will be reviewed again and may be revised once all aspects of the protocol design are agreed and finalized.

Although there have been a number for discussions with Philip Morris regarding the protocol and questionnaire design, to date, no protocol has been submitted pending signing of the Letter of Intent. We expect the process to move along quickly once we receive the OK to proceed.

If you have any questions regarding the attached budget, please feel free to contact me at 608-283-5685.

Sincerely,

Brigitte M. Kochan, CCRC  
Manager Client Services
